Cleaning between recess, lunch, PE, and Music (any other specials classes)

## Online learning

**Edutech** is putting plans in place to lead webinars on Powerschool and TEAMS integration as well as online provision through the TEAMS platform – we will share what we find as it comes available

### [10 strategies for online learning during a coronavirus outbreak | ISTE](#)

As the COVID-19 coronavirus continues to spread, schools around the globe are shifting to online learning in an effort to slow the spread of the disease. ISTE strongly recommends that all schools have a digital learning plan and tools in place to enable a quick pivot to remote learning if needed.

## SpEd Provisions

<https://www2.ed.gov/policy/speced/guid/idea/memosdcltrs/ga-covid-19-03-12-2020.pdf>

**Internet provision for F/R families w/o internet** - if internet needed to be provided at homes, there are reductions in prices – many local providers have no contract and no cancellation/installation fee (100 students needing internet for a month = ~\$3,000). Additionally, students on IEP could come to school with others online (providing the IEP team decided that would work best).

<https://www.srt.com/lifeline/>

**Lunch updates** – Just a note on reimbursements – The state has not officially received a waiver allowing schools to utilize the summer programming for all schools – that means only the current schools (over 50% F/R) are eligible

Minot Hockey Boosters

## Preparing students when returning resources

Below are a variety of resources that could be helpful for schools as they navigate helping kids return to the transition back to school after what could be a long break. I could not locate anything specific around anti-bullying tactics for kids who are sick, rather some general resources. Let me know if you'd like me to keep digging. - [anne.williamson@k12.nd.us](mailto:anne.williamson@k12.nd.us)

## Taking Temperatures

Governor said he'd like to see students and staff take temperatures when they come in the door. Local Health Districts weren't aware – they will be providing more guidance. Schools are reporting Amazon has thermometers and can get them delivered by Thursday. More to come...
